ECONO ROD NEWSLETTER

ECONO RODS EXPANDING PROPERTY MAINTENANCE FACILITY

Over the last year Econo Rod has been requested time and time again from our customers, if we can assist them with a maintenance problem that they have. In the main we have been able to accommodate these requests, but this tended to be done on an add-hock basis. With this continued demand we have now undergone some major internal restructuring and recruitment and have created a complete maintenance department, headed up by our new Maintenance Manager, Chris Bowles.

Chris comes from an engineering background,

and before joining Econo Rod was working for a major maintenance contractor to Tesco's Plc. During 6 years with them he was the Facilities Manager looking after over 150 Tesco stores across all formats, around the South East of England. He has a vast knowledge of building and property management.

With this structure now in place, this allows us to provide a complete, all-trades maintenance service, employing a highly professional work force combined with our own modern equipment resources. We can now offer the following types of maintenance work:

- ◆ Washroom facilities refurbishment
- ◆ Suspended ceilings
- ◆ Property Refits
- ◆ Kitchen and Bathroom installation
- ◆ All roofing repairs
- ◆ Manhole replacement (with ceramic infills)
- ◆ Signage
- ◆ Floor repairs and re-lays (Wood, Concrete, Ceramic,
- ◆ Altro Flooring, Vinyl, etc.)
- ◆ General brick work
- ◆ Painting and decorating
- ◆ Carpentry
- ◆ Electrics

If you currently have a maintenance issue even if your requirement is not listed please ask, we are confident that we will be able to help you.

INCLUDED IN THIS ISSUE:

- ◆ Maintenance Facility
- ◆ Redesigned Website
- ◆ New Customers
- ◆ Limited Company
- ◆ New Technologies

REDESIGNED WEBSITE- WWW.ECONOROD.CO.UK

We have recently redesigned and updated our website, and we ask that you use this facility to look at the many types of services that Econo Rod can now offer you. The list is very comprehensive, but is still only an overview, so should you have a requirement that is not listed please contact us. We have been in business for over eighteen years and as a consequence there is very little that we have not seen.

If you are already a customer of Econo Rod, and most of our customers have been with us since

we started back in 1990, and would like to put a face to a name, then please go to our "Contact us" link and select the person you wish to see.

If you are already a customer or are considering using Econorod in the future and wish to talk through any issues you may have, contact us on our main number 01707 333573 or call or email anyone on our "contact list". We are a friendly team and would be only to glad to hear from you and discuss your requirements.

- ◆ Knightsbridge Property Services
- ◆ First Capital Connect

LIMITED COMPANY

During this year 2008 Econo Rod will be changing from a Partnership to a Limited Company. We have decided that with the

substantial growth of Econo Rod during the last few years it would be more beneficial to change Econo Rod to a limited company, and all that

brings with it. As soon as this has been confirmed we will be notifying you, and ask that you change your details to reflect this change.

INVESTMENT IN NEW TECHNOLOGIES

With the ever changing face of technology Econorod is always looking to enhance the service that they can offer to their customers.

At Econorod we have the latest GPS tracking systems fitted to all of our fleet of Tankers and Vans, this enables us to keep track of the precise location of all of our vehicles at all times of the day. What this means to you the customer is that the

promise we give you in regards to attending your site is always completely up to date. This allows Econorod and you to work together to plan your business day according to your needs and your workload.

In addition to this we are heavily investing in the most up to date camera equipment

using fibre optics and digital technology. This means that all of the camera inspection surveys that are carried out on behalf of our customers offer very accurate results with the latest digital pictures and video. These can be supplied on disk to run directly on a PC, or in a lot of circumstances can be emailed direct to the customer.
